

Project Overview

As of March 5, 2013

Milling and filling operation

Street Resurfacing 2013 Program – Package 2

Description and Benefits: Street resurfacing improves ride quality, reduces street maintenance expenses and serves as a means of renewing and prolonging the life of roads and highways. The work consists of milling the existing pavement, overlaying with new asphalt and replacing curbs and sidewalks, only as necessary, in order to accommodate new *Americans with Disabilities Act*-compliant curb ramps. Plans call for partial depth pavement repair only as needed.

Fifty-five percent of typical project costs go toward resurfacing, partial/full depth pavement repairs and curb repairs; 35% for curb ramps and 10% for construction inspection.

Schedule:

Construction and inspections

Start

Spring 2013

Completion

Spring 2014

Status:

Construction is tentatively scheduled to begin in May.

Contact Information:

Design Project Manager: Brock Wilfong, tel. (614) 645-3974

Designer: City of Columbus

Construction Contractor: TBD
